

~~The original estimate which now~~
~~appears to have been ~~quite~~ realistic~~

Ⓟ as well as reductions from what now
appears to have been a fairly realistic
estimate by the Public Works Service.

Ⓟ The foregoing is based upon
~~the estimated current cost of construction~~
~~to of construction costs as~~
~~of construction costs as~~
~~rising construction costs as of course~~
~~a factor over which we have no~~
~~control and if they occur~~
~~so of further~~ cost costs. and
~~all of the~~ further increases
in ~~cost~~ costs would of course
result ~~the~~ in ~~the~~ a further
reduction in span. ~~reduction~~
